Muller Conventional Automatic Line 35-45 LPH Raptor 1525 Turntable/ Cobra 1525 Rotary Arm

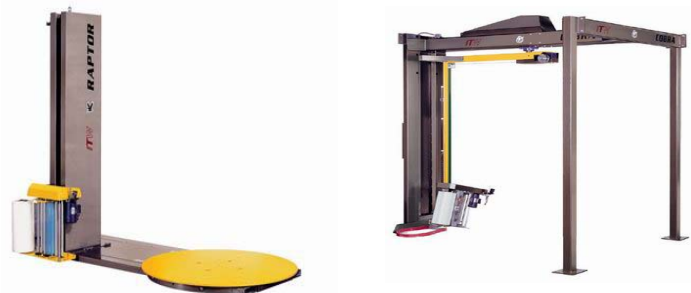

- The Raptor 1525 is designed and built for long service life and low maintenance. Heavy gauge steel, ring gear drive systems and PLC controls are just a few of the features that make the Raptor 1500 the most rugged turntable wrapper in the industry.
- The Cobra 1525 offers several options to meet even the most challenging stretch packaging operations: Unstable loads, light loads and fragile loads.

Muller Conventional Semi-Automatic Up to 35 LPH

Raptor 525 Turntable Cobra 525 Rotary Arm

Both with the New SG3000 Carriage
